Traces the story of how Henry Ford II endeavored to compete against Enzo Ferrari for dominance in the speed- and style-driven 1960s automobile industry, revealing the pivotal contributions of visionary Lee Iacocca and former racing champion-turned-engineer Carroll Shelby.

The Question of the Gift is the first collection of new interdisciplinary essays on the gift. Bringing together scholars from a variety of fields, including anthropology, literary criticism, economics, philosophy and classics, it provides new paradigms and poses new questions concerning the theory and practice of gift exchange. In addressing

The Soviet T\34 medium tank needs no introduction, being the most famous tank ever built especially as has seen service across the globe throughout the twentieth century ' s most brutal wars. However, despite this fame, little has been written about its design changes. While most tank enthusiasts can differentiate between the ' T\34\76 ' and the ' T\34\85 ' , identifying different factory production batches has proven more elusive. Until now. With nearly six hundred photographs, mostly taken by soldiers who both operated and fought against the T\34, this book seeks to catalogue and contextualise even the subtlest details to create a true ' T\34 continuum ' . The book begins with the antecedents of the T\34, the ill\34-fated BT ' fast tank ' series and the influence of the traumatic Spanish Civil War before moving to an in\34-depth look at the T\34 ' s prototypes. After this,

every factory production change is catalogued and contextualised, with never-before-seen photographs and stunning technical drawings. Furthermore, four battle stories are also integrated to explain the changing battle context when major production changes take place. The production story is completed with sections on the T-34 's post-war production (and modification) by Czechoslovakia, Poland, and the People ' s Republic of China, as well as T-34 variants.

If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side

programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages. Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.

The Soviet T-35A is the only five-turret tank in history to enter production. With a long and proud service history on parade grounds, the T-35A was forced to adapt to the modern battlefield. Outclassed

Read Book Belarus T40a Tractor Operators Manual

and outdated, the T-35A tried to hold its own against German invaders with terrible consequences. *Fallen Giants: The Combat Debut of the T-35A Tank* gives a grim depiction of the aftermath of the goliath that was the T-35A. Very little is known of these strange vehicles bar their basic shape and photographs of parade grounds and frontline action. For the first time, battlefield photographs have been cross-referenced with maps and documents to bring the most complete look at the T-35A in the Second World War to date. Explore the changes that were made to the design throughout the 1930s and interesting conversions often missed.

This volume contains the revised full text of the Harmonized System of Signs and Symbols on Inland Waterways (SIGNI)
