Honda Engine Pressure Washer: [Won't Stay Running][Stops ...

I am sorry you are having a problem with the tiller. Usually when an engine kicks back that hard, it is because the valves are out of adjustment. The engine has a compression release that aids in starting the engine. If the valves are out of adjustment the compression release does not work and will jerk you hand back. I have posted a few images ...

Download or purchase Honda Engine owners' manuals for the GC160.

Honda Engines | GC160 Owner's Manual

Yeah, just went thru that with a GX340 engine on my pressure washer - the thing acted like a fuel problem. It would start and run OK at idle, but under load it would run maybe 15-20 seconds and die - if I was quick enough, choking it would SOMETIMES keep it from dying. Checked the in-tank fuel filter, looked NEW. Pulled float bowl, flushed out everything with the nastiest carb cleaner I could ...

Honda GX390 wont stay running - TractorByNet

The Honda GC160 is a small (160 cc) single-cylinder air-cooled 4-stroke internal combustion gasoline engine with horizontal shaft, manufactured by Honda Motor Company since 1997 for general-purpose applications.. This engine has a single-cylinder, compact combustion chamber, tough resin overhead cam for durability and quietness and uniblock construction reduce fuel consumption.
