minds. *What Else Can a Teacher Do?* presents a measured approach to career evaluation to help you gain a better perspective on your work satisfaction at present before moving on to explore how your contextual experience and in-demand skill set can be transferred to a multitude of other professional roles and environments. Split into three interactive and user-friendly parts, *What Else Can a Teacher Do?* features a variety of self-reflective checklists, charts and activities to engage with; an exploratory range of at least thirty education-based career moves to consider; and a comprehensive list of around 120 job profiles providing details on the key roles, entry routes, salaries and tasks involved in each profession to both inform and inspire. Plus, in order to help you accurately compare your current position with these realistic career alternatives, all of the jobs listed have some overlap with the skills and interests teachers develop in the classroom and each job profile is complemented with a select listing of reliable websites for more detailed information and sources of vacancies. This book is not intended to serve as a survival guide or as an escape manual. A survival guide implies you'll do just enough frenetic gasping and paddling to keep your head above the turbulent water, while an escape manual is an equally dangerous proposition as it implies that change is easy. It is not. Rather, *What Else Can a Teacher Do?* provides a wealth of suggestions in order to help you move on in your teaching journey, and lays out some alternatives to teaching so that you can take a peek with a dispassionate and critical eye if you are contemplating making a bigger change in your working life. What else can a teacher do? David Hodgson has the answers. Essential reading for teachers who are 'stuck in a rut' and want to explore other options. Contents include: Part 1 Where are you now?; Part 2 What are your job options? Section 1 Job options based around teaching skills, Section 2 Job options for recent graduates, Section 3 Job options for school leaders; Part 3 Job profiles.
